

**LEARN BY DOING.  
DO BY EXPLORING.**

**Join our Explorer Post to participate in regular meetings to prepare you for the healthcare career that's right for you!**

**Healthcare Career Exploring is a hands-on program open to young men and women from the 9th grade to 20 years old with an interest in learning more about a wide variety of careers in the field of healthcare.**

You will participate in unique, real-world projects to give you a real feel for whether a healthcare career is the right one for you. You will have an opportunity to network with professionals who work in these careers every day – they are using the latest technology, they are aware of emerging trends, they know what it takes to get into college for their specific career.
