Knee Pain? From Reconstruction to Replacement. We’re Here, For You.

Crisis Training at FHN: Stop the Bleed.

Celebrating 50 Years.
Behavioral health services in Illinois have had a challenging time in recent years. Many have closed, and funding has been strained. At FHN, we have weathered the storm and in this INSIGHT, we celebrate the 50th anniversary of FHN Family Counseling (FCC) and offer thoughts for the coming years. I’m proud to recognize and thank the many providers, staff, community members, and board members who have served or worked at FCC – you’ve made important contributions that positively impact our communities in this important area of healthcare!

Also in this issue we highlight our orthopedic surgery capabilities including TruMatch®, an innovative new knee replacement system that ensures that your new knee fits as perfectly and comfortably as possible while also offering most patients a quicker recovery and better long-term results. We’re proud to be the only healthcare organization in the region, including Rockford, to offer this technological advancement.

We have a heartwarming story about a family who have created a community tradition to honor their late father and support FHN Hospice, and with summer upon us, we’ve included a handy comparison chart showing the many FHN options for treatment of injuries and illnesses that may accompany the season, including FHN FastCare, FHN/Physicians Immediate Care Urgent Care and in life-threatening situations, the emergency room at FHN Memorial Hospital.

Summer is also school/sports physical season, and the full schedule of all our sports physical sessions is online at www.fhn.org. Don’t forget that FHN donates back the full cost of sports physicals to the student’s school – last year we raised $15,600 for area schools! Summer also is a great time to get caught up on wellness appointments and avoid the autumn rush. If you need help finding a primary care provider for these or other services, just give us a call at 1-877-600-0346, ext. 965 and you’ll have an appointment before you hang up the phone.

The FHN calendar in this issue is a big one – there’s so much going on during the summer, from support groups and educational sessions to festivals and parades. FHN is committed to being not only your first and best choice for healthcare in northwest Illinois, but a great neighbor and community partner as well.

I will close by thanking you for continuing to refer your friends and families to FHN so we can care for you as we would our own family. And speaking of family, I do hope I’ll see you while I’m out and about with mine – enjoy the summer!

---

**FHN Jointopoly Reunion**

More than 100 patients are enjoying life to the fullest after total joint replacement at FHN! This June, some Joint Club “alumni” gathered to visit, enjoy refreshments, and listen to a talk from FHN Rehab Services Director Jessica Currier on how to maintain strong joints through a healthy lifestyle. FHN therapy dog Finley even showed up to spread some love!

---

**MyFHN On The Go – There’s an App for That!**

With our new MyFHN app, you can easily access your healthcare information on your smartphone any time! You can choose to log in using the website too, but if you’d like to take advantage of functionality designed just for your phone or tablet, just follow these simple steps:

1. Search for the MHealth app in the Google Play or Apple App store.
2. Select the Meditech MHealth app (there are multiple MHealth apps).
3. “Allow” MHealth to access your location – this will give you a selection of patient portals near you, and MyFHN will be one of them.
4. Choose the FHN/MyFHN Portal and download it – it will now appear as an icon on your smartphone.
5. Anytime you want to access MyFHN through the app, just log in with the same username and password set up for the online version of MyFHN.

Thanks for choosing MyFHN!
Nominate Your Nurse or Caregiver!
We’re proud to celebrate our healthcare providers. But we want your help, too.

To acknowledge and appreciate our employees, you can nominate your FHN nurse or caregiver for a national award!

The DAISY (Diseases Attacking the Immune System) Award is an international program that honors and celebrates the skillful, compassionate care nurses provide in hospital settings every day. The DAISY Foundation was established by the family of J. Patrick Barnes after he died from complications of an autoimmune disease. In addition, the BEE (Being Exceptional Everyday) Award was created to honor patient-care (non-nurse) staff who assist a nurse or patient and his or her family in delivering excellent patient care.

Help us celebrate our employees by nominating your nurse for the DAISY Award, or your caregiver for the BEE Award at www.fhn.org/daisy-bee-2018.asp. A multidisciplinary committee at FHN will select the DAISY and BEE Award honorees from your nominations. Honorees will be publicly recognized with a certificate, pin, and treats in their unit.

Thank you for helping us recognize the selfless, compassionate work our nurses and caregivers do every day!

Welcome to FHN!
Gastroenterologist, Hospitalist
Join FHN

FHN is pleased to welcome board-certified gastroenterologist **Timothy Laurie, DO, FACP**, to FHN. Dr. Laurie sees patients at the FHN Specialty Care – Stephenson Street clinic in Freeport.

Dr. Laurie holds a medical degree from Midwestern University in Downers Grove, Ill., and also is board certified in Internal Medicine.

He served his residency and a GI fellowship at Advocate Lutheran General Hospital in Park Ridge, Ill.

While at Advocate Lutheran General Hospital, he served as research director, faculty clinical director and GI fellow mentor. Dr. Laurie is a Fellow of the American College of Physicians as well as a member of the American College of Gastroenterology, the American Medical Association, and the American Osteopathic Association.

To make an appointment with Dr. Laurie, call the FHN Gastroenterology department at 815-599-7715.

Nurse Practitioner **Michele Wilkinson, AGACNP-BC**, has joined the Hospitalist team at FHN Memorial Hospital. She is a board-certified gerontology acute care nurse practitioner who holds a master’s degree from the University of Illinois – Chicago.

Michele has cared for patients in cardiac telemetry, progressive care, and intensive care units and is also board certified as an advanced certified hospice palliative nurse practitioner. She got her nursing degree and later, her bachelor’s degree from Rockford University in Rockford.

As a member of the hospitalist team, she works on behalf of hospitalized patients’ primary care providers to provide care for hospitalized patients. She communicates with patients’ primary care providers and shares a report on care received when a patient is discharged from the hospital and returns to his or her primary care provider’s care.

Just One Call is All it Takes ...

... to find a primary healthcare provider and get an appointment at FHN. If you are in search of a provider who will work with you to achieve and maintain your best health, call us for an appointment and you won’t hang up the phone without one.

Call us toll-free

The 50-year journey of improving our community’s behavioral health is not only a great FHN story, but a great community story. We’re proud to share it with you here.

A group of citizens including Jean Furst, Jim Skyrms, and Fred Kirkman formed the Stephenson County Mental Health Association in 1963. At the time, people battling severe episodes of psychosis or depression would be dropped off at the hospital emergency room and transferred to Rockford for inpatient services. Volunteers from the Mental Health Association would sit with them while they waited to see a counselor. The association members realized a change was needed—the Freeport community deserved more accessible, nearby help. These individuals initiated a plan and voters passed a 708 Mental Health tax referendum in 1967.

With about $80,000 of initial operating money, the Stephenson County Mental Health Clinic (SCMHC) was then opened in 1967 in the Smith Building at 2-6 East Stephenson Street in Freeport to help individuals and families improve their lives through counseling, guidance, and education. With patients from Freeport and 17 surrounding communities, the clinic grew very quickly. The communities expressed a strong need for these services within the clinic’s first five years of operation, confirming that the Freeport community made a great decision.

Thomas Colbert, the first executive director of SCMHC, established a comprehensive behavioral health center with a wide range of services including marriage counseling, communication issues, depression, and prevention services. In 1973, offices were also opened in Jo Daviess County, staffed by two part-time social-workers. Originally located in the Jo Daviess County Health Department, Galena services eventually moved to 300 Summit Street, where they remain today.

Focused on Prevention

In 1974, Bob Dunbar became the director and services were provided out of the Professional Building at 27-29 Main Street in Freeport. In 1976, the facility relocated to 222 West Exchange Street and shortly thereafter, the facility name was changed to Jane Addams Community Mental Health Center to honor Jane Addams, the activist, social worker, public philosopher, and leader for world peace who was born in Cedarville.

Drug and alcohol prevention services were added in the schools, as well as day treatment for more seriously ill patients and 24/7 crisis intervention services.

Dan Neal became the executive director in 1985 and in 1987, the center relocated to the old nurse’s dorm on the campus of Freeport Memorial Hospital. Neal is most proud of the addition of the Parenting Education and the Big Brothers Big Sisters programs in the early 1990's and the merger with FHN in 1999 when the Center changed its name to FHN Family Counseling.
Strong behavioral health services are extremely important and beneficial to the health of our community.

Reducing the Stigma

“One of my biggest motivations in getting involved in behavioral health was fighting the stigma that the mentally ill face. I wanted to help people understand that there is no health without behavioral health. Integrating behavioral health services and other health services not only helps to reduce the stigma, but also provides a higher level of care,” Dan says.

There are many examples of how behavioral health and other health conditions are related. For example, heart attacks can lead to depression; people who have had a heart attack are 50 percent more likely to experience depression. Young people also suffer from depression and anxiety that may go unnoticed by adults. “I remember being anxious in high school and college. At that age, you’re worrying about whether people think you’re cool, and you’re also worrying about grades, what you’re going to do with your life, and what comes next,” Dan recalls.

Greater attention to bullying initiatives in schools also helps to identify and ameliorate stressful situations early before they grow to cause greater damage.

Building on 50 Years of Positive Changes

FHN is proud to look back on our journey improving the health of our communities, but we’re also focused on future plans. Gabriel Gonzalez, the current executive director of FHN Family Counseling, says, “We have applied for funding that would allow us to provide training to police, first responders, educational staff, veterans, active military members, and community members, and teach them how to respond to an individual in crisis.”

There also is an initiative to make crisis beds available at FHN Memorial Hospital in order to reduce the number of people who are transported out of the area for these services. Through a telehealth initiative, FHN is planning to make access in remote areas much more readily available, including access to the area’s only child psychologist. We’re looking forward to this initiative not only to increase safety and health in our communities, but also because it would be the only initiative of its kind in northwest Illinois.

“Strong behavioral health services are extremely important and beneficial to the health of our community. I am confident that with continued community support, the next 50 years will see great progress in reducing the stigma still sometimes attached to seeking behavioral healthcare,” says Gabriel. “We are committed to continually improving both access and improving the effectiveness of our services for the people of northwest Illinois.”

FCC will be the beneficiary of this year’s FHN Festival of Trees Gala proceeds! The Gala will be held November 16 at Grand River Hall in Freeport – save the date!
Do You Know How to Stop the Bleed?

Due to recent increases in mass shootings, bombings, natural mass casualty events, work and home injuries, and motor vehicle accidents, we have been inspired to do more to keep our community safe.

That’s where Stop the Bleed comes in. Stop the Bleed is a nationally recognized program designed to teach non-medical people and everyday members of the community the importance of stopping hemorrhage. FHN Emergency Preparedness Coordinator Doug Toepfer leads a 2-hour class on this topic for only $25 per person.

The program teaches the skills necessary to control, and if possible, stop bleeding in people with traumatic injuries. If left unattended, hemorrhage can quickly result in death. The goal of Stop the Bleed is to provide an immediate response to bleeding when trained responders or a first aid kit is not available.

If you want to learn the skills that could help you save a life, we welcome you to join an upcoming class! You are important in helping to spread this knowledge to schools, churches, businesses, and individuals who want to keep their family and friends safe.

For more information or to register, visit www.fhn.org/stop-the-bleed.asp. Read about our other Community Education programs at www.fhn.org/community-education.asp.

“ANYONE can benefit from this class, but especially those who care for others—child care workers, parents, home care staff, or those that work in areas where accidents may be more prone to happen. In a matter of an hour, you will have invaluable skills that will last a lifetime.”

– Elizabeth G.

FHN participated in National Drug Take-Back Day April 28 with an event at Cub Foods in Freeport. We collected 115 pounds of old medication for safe disposal—a lot of potentially hazardous waste that won’t be going into our groundwater or be available for theft and abuse!

If you weren’t able to get to the event, or if you need to get rid of more medications, you can take them to one of the permanent pick-up spots located across northwest Illinois:

- Freeport Police Department, 320 W. Exchange Street, Freeport
- East Dubuque Police Department, 193 Sinsinawa Avenue, East Dubuque—needles only
- Galena Police Department, 311 N. Bench Street, Galena
- Lake Carroll Clubhouse, 3-200 Association Drive, Lake Carroll
- Lanark Police Department, 111 S. Broad Street, Lanark
- Milledgeville Police Department, 334 N. Main Avenue, Milledgeville
- Mount Carroll Courthouse, 301 N. Main Street, Mount Carroll
- Pecatonica Fire Department, 405 Main Street, Pecatonica
- Savanna Police Department, 333 Chicago Avenue, Savanna
- Shannon Police Department, 17 E. Market Street, Shannon
- Stockton Police Department, 155 W. Front Avenue, Stockton
- Thomson Police Department, 2100 Market Street, Thomson
- Warren Police Department, 516 Anson Street, Warren

Our next Drug Take-Back Day is October 27—watch for more information in the next Insight or online at www.fhn.org.

Mark your calendar now and save the date for these upcoming FHN events.

Women’s Event at Cannovas
Monday, October 15, 2018
5:30 to 7 p.m.
Meet and chat with providers and staff from our women’s care team over great food and complimentary beverages! More details to come!

OPEN HOUSE
Center for Wound Healing
Wednesday, November 7, 2018
5:30 to 7 p.m.
Join us at the Center for Wound Healing at FHN Specialty Care—Stephenson Street and learn about the care options offered for chronic wounds. Open house visitors are invited to tour the facility, talk to staff, and enjoy refreshments. More details to come!
Flynn Family Donates Trivia Night Proceeds to FHN Hospice

If you think trivia night is just a night of useless knowledge, the Flynn family can prove to you that it’s so much more! Sisters Courtenay Flynn and Crystal Geerts partnered with their mom, Carla, to create a trivia night fundraiser to honor their dad, John Flynn, who was battling cancer at the time. The goal was to raise money and have some fun, but they had no idea the impact they would make.

When the Flynn family started organizing their first fundraiser in 2013, they sparked the interest and curiosity of many. The number of businesses that showed their support far surpassed their expectations.

The Flynn family chose to hold trivia night at the VFW in Hanover, which was struggling as a business when they started the fundraiser. Vicky Hastings, the VFW bar manager, says the Flynn’s trivia night has become their biggest night of the year, so they now choose to donate the hall to the family for the event every year.

Imagine 100 people competing at trivia in the VFW hall, which barely holds 100 at capacity. All night, trivia teams are battling to answer questions about animals, cars, presidents, state facts, movies, and so much more. There’s such a wide variety of questions, every attendee is almost guaranteed to bring some sort of value to the team!

The Flynn family has created so many fun traditions as part of this event, one of our favorites being a “traveling trophy.” The winning team must bring it to next year’s event and try to defend their title. If they can’t defend it, they have to present it to the new champions. Everyone enjoys this fun, healthy competition!

All donations from the fundraiser go directly to FHN Hospice.

“Our reason for donating the money to FHN Hospice is simply to thank them for the care they gave not only to Dad, but to us as a family. With Hospice, you’re more than a number, and you become family. Until you’re in that position, you have no idea of the impact Hospice can make. They continue to support and surprise us. They have a completely amazing group of people we could never thank enough,” says Crystal Geerts, John’s daughter.

“Seeing everyone come together for a night of fun and support for an amazing organization is what makes this so rewarding. The event brings in such a wide variety of people, so it’s neat to just sit back and see them all laughing and getting along. Most of the teams have been with us since the start - supporting us all the way,” Crystal says.

Each year, they reminisce about when their dad was able to sit back, laugh, and joke with everyone as they came in the door to play trivia and cheer them on each time they won something. One of the loyal trivia night attendees, Cheri Gertsch, decided to liven the place up by making paper airplanes—which was one of John’s favorite things to do on break at work. “He would always make paper airplanes and throw them around, acting like such a kid. He even got written up for it once at work—almost getting a 3-day suspension. But when Cheri made paper airplanes and started flying them around on trivia night, we knew Dad was smiling and laughing with us,” Crystal says.

John Flynn passed away on December 18, 2013, after the first fundraiser. There’s no doubt that his family continues to honor him in one of the most positive ways possible.

The Flynn family raised $970 on their first trivia night in 2013, and so far, they’ve raised $2,300 with no signs of slowing down!

Thank you, FHN Hospice, for your great care of the Flynn family. And thank you to the Flynn family for creating such a fun tradition and showing your support for our organization.
Whether You Need Knee Replacement Or
TruMatch® Knee Replacement – Jim Kerr

TruMatch® made a happy camper out of Jim Kerr, who felt almost immediate relief after his surgery. Now he enjoys increased mobility while camping with his family at Lake LaDonna.

Before his knee replacement surgery, Jim Kerr couldn’t mow the lawn, climb a ladder, or participate in some of his favorite campground activities. TruMatch® from FHN changed all that … and now Jim is doing things he hadn’t done in quite some time.

Jim’s pain was intense. “Saying my knee hurt is an understatement,” he says. “The pain was constant. It was difficult to walk, almost impossible to climb stairs, and I couldn’t keep up with anybody. I couldn’t even find a comfortable position to just sit around. I knew I had to do something, so I went to see Dr. Dammann.”

FHN Orthopaedic Surgeon Greg Dammann, MD, reviewed all of Jim’s images and identified him as a good candidate for the personalized TruMatch® procedure. “Jim had bone-on-bone arthritis as a result of degenerative changes in the knee joint. I felt a knee replacement using the TruMatch® system was the right choice,” Dr. Dammann says. This innovative technique can help expedite recovery and healing time. Specialized leg scans create customized surgical guides that adapt to each patient’s anatomy. This helps with precise positioning and alignment, which increases positive results.

Jim was convinced. He scheduled his surgery and remembers feeling positive and prepared. “I met with the surgeon, surgical assistant, and anesthesiologist, and they reviewed everything with me that morning. We even said a short prayer together, which was comforting. The surgery itself took about an hour and 20 minutes and I was in the recovery area for about 45 minutes. That very afternoon, I went to therapy for the first of four post-surgery, in-hospital sessions.

**Pain Gone the Same Day**

“When I first stood after the procedure, my normal knee pain – the pain I had lived with for years – was completely gone. It was amazing,” Jim shares. “I managed the surgical pain with medication for a couple days and then before therapy for the first week. A special ice pack they gave me to help with swelling was pretty helpful, too.”

Jim was faithful to his therapy regime, which was a big part of his success. “I did physical therapy three times a week for two months and now I feel strong. At first, I couldn’t even pedal their exercise bike in a full circle. We started with stretching and moved on to mobility and strength, and it didn’t take too long to start feeling more confident.”

Since Jim so quickly benefitted from his TruMatch® experience, he is getting ready to do it again. “I am so happy with how my surgery went that I am having my other knee replaced soon. I am a true believer in TruMatch® and Dr. Dammann. I would recommend them to anyone. They changed my life.”

After reading about the innovative procedure, Jim felt the customized TruMatch® solution was his best choice.
Josie McDermott heard her knee ‘pop’ at club soccer practice. It didn’t really hurt, so the determined standout just kept playing. After the game, it just felt ‘wrong.’ When it started to buckle later, she knew she needed a professional opinion. That’s when she turned to FHN Orthopaedic Surgeon Greg Dammann, MD.

An MRI confirmed she had an injury—a torn ACL. According to Josie and her family, Dr. Dammann did a great job discussing all the choices available to her. They opted for a knee reconstruction, which is often used to help student athletes recover quickly.

Ready and Willing
“Josie was the perfect candidate for this type of surgery,” Dammann declares. “She was eager to be ready for high school soccer, and motivated to follow instructions and work hard to expedite her recovery.”

Dr. Dammann explained the procedure so well that Josie didn’t feel nervous about her surgery. “He did an excellent job preparing me for what to expect,” she emphasizes. “He even gave me his cell phone number so I could contact him at any time. That gave me a lot of confidence.”

Surgery Went Well … With One Surprise
The big day arrived—a Wednesday—and Josie went in to surgery calm and ready to move forward. What no one knew until later was that she also had a torn meniscus. Dr. Dammann came out to share the news with Josie’s parents. “Sometimes, even with the most sophisticated equipment, there are surprises in the operating room. This was one of those times,” he explains. “Happily, it was pretty easy to mend and Josie’s surgery was a complete success.”

The patient had a great rapport with the nurses in the recovery area, and later that very same day, they prepared Josie to leave the hospital. “They wheeled me down to the car and then I was up on crutches and ready to head home,” Josie says. “I was happy they taught me how to navigate the stairs before I left FHN! That first day was rough, but I truly did improve quickly.”

Physical Therapy Set the Pace for Recovery
The next Monday—just five days after surgery—Josie started physical therapy. “PT played an important role in my recovery,” she explains. “My therapists knew I wanted to be ready to play soccer in six months, but reminded me that sometimes it can take up to eight months to fully recuperate. They knew how important it was to me, so they helped me set goals and push myself to achieve them. I went to therapy three times each week and could see my range of motion increase with each session of hard work. With their guidance, I was healed and able to play Lady Pretz soccer my entire junior and senior seasons.

Josie was motivated for a quick recovery. Not only was she eager to get back on the soccer field, she was excited to obtain her driver’s license. The day of her surgery was just two days before she was eligible to take her test at the DMV. This double dose of incentive helped make Josie a model patient, according to Whitney, her physical therapist.

Now, I am heading off to college on a full scholarship. I am so grateful that Dr. Dammann and FHN helped keep me on the playing field.”
**Patient Services Options**

With the addition of FHN/Physicians Immediate Care Urgent Care, you now have more options than ever for FHN healthcare in our region. The chart below shows visit options for both non-life-threatening circumstances and more serious situations. All of these are entry points that can lead to additional appointments with FHN Specialty Care providers if needed; for more information on 40 specialties we offer, please visit [www.fhn.org/specialtyCareMain.asp](http://www.fhn.org/specialtyCareMain.asp).

Miles And Minutes is Back –
More Ways to Win Money for Your School

Your summer fun can pay off for your school! FHN’s Miles And Minutes program encourages you to be active as you log various types of physical activity to win prize money for the school system of your choice.

Register for this online program at www.fhn.org/milesandminutes. All of the rules of the competition are there, as well as information about how miles and minutes are calculated to determine the winning school systems.

A calculator on the website automatically converts minutes of almost any type of physical activity into miles, which are normalized based on number of students to help ensure that all schools have an equal chance to win.

First prize for each category is $2,000, second prize is $1,000, and third prize is $500! Prize money will be awarded in September. Prizes will be awarded in two categories:

- School system with the most average “miles” logged per participant
- School system with the most “miles” total

Everyone’s Got a Chance

Schools not winning in one of the two main categories are eligible to win in the following categories:

- School system with the most “miles” per participant
- School system with the most active families
- School system with the most “miles” total

New for 2018! FHN promotes healthy families and this year, we have added family activities. If an adult and at least one child participate in one of these activities, your school will earn double points! The school system with the highest amount of family activity miles will win $500.

Eligible school systems will be entered into a random drawing for cash prizes:

- First place – $500, second place – $300, and third place – $200.

Competition began May 28 and runs through Sunday, September 2. You can register and get moving for your school at any time before Sept. 1.

Participants (must be age 12 and above) can support any school system, and current standings will always be on the website.

“Like” FHN Miles And Minutes on Facebook for fun updates, healthy tips, and more!

For more information, call toll-free 1-877-6000-FHN (1-877-600-0346) ext. 901.

Welcome to FHN’s Wellness Calendar

FHN is proud to offer many opportunities for you to learn about health and wellness—from informational programs and events to free health screenings all year long. Our popular Top 50 program offers a full slate of free blood pressure and other health screenings that are open to any adult! For years, Top 50 members have received a quarterly newsletter with a calendar of events.

This year, we’re sharing information about the programs we offer in a convenient calendar in each issue of Insight. We hope you’ll take advantage of some of these free, quick chances to “check up” on your health!

(This information was correct at the time of publication. Please see FHN’s online calendar at www.fhn.org for additions or changes.)

---

**Sports Physical Clinics** $20 sports physical meets Illinois eligibility requirements for all sports and is good through the 2018-2019 school year. The IESA/IHSA Sports Physical Form must be completed and signed by a parent or guardian before the physical. If a parent does not accompany the athlete, the student must bring a filled out and signed Consent for Medical Care form to the physical. Forms are available at www.fhn.org; no appointment is needed unless noted.

Thanks to the generosity of our Foundation donors, we were able to send Keri Wall, RN, CPAN, (Surgery) and Elizabeth Duke, MS, RD, LDN (Nutrition) to the 25th Annual National Evidence-based Practice Conference in Iowa this May.

Keri and Elizabeth were invited to present on their project that challenges traditional ‘no food or drink after midnight’ strategies and supports routine preoperative nutritional enhancement using a complex carbohydrate-rich drink. Their presentation “Breaking the Fast: A Nutritional Intervention to Enhance Surgical Outcomes” was so well-received by the conference attendees that they were asked to write a paper on their research, data collected and outcomes for publication in a professional periodical.

Thank you again for sending our team of experts to the event to showcase the amazing work done right here at FHN!

**Pink Heals Funds Benefit Cancer Patients**

Last year’s Pink Heals events yielded more than $500 to help patients at the FHN Leonard C. Ferguson Cancer Center at FHN Memorial Hospital in Freeport. Patients in need received gift cards from Shell, Aldi, Cub Foods, and Save-A-Lot.

*[Image showing people holding gift cards]*

**CONNECT the D.O.T.S.**

We are working with many community partners to provide the team support needed for individuals with complex care challenges, including:

- Amity Daycare and Learning Center
- Boys & Girls Club of Freeport/Stephenson County
- CareerTec
- City of Freeport
- Church organizations
- CONTACT
- Freeport Fire Department
- Freeport Police Department
- Freeport School District 145
- Joseph’s Pantry
- Local nursing homes
- Local pharmacies
- Mt. Calvary Church of God
- New Jerusalem Church of God
- NICAA Head Start
- North Central Illinois Council of Governments (NCICG)
- Pretzel City Area Transit
- Salvation Army
- Senior Resource Center
- Star Ambulance
- Stephenson County Farm Bureau
- Stephenson County Health Department
- United Way of Northwest Illinois
- University of Illinois Extension
- YMCA

Watch for more info about our activities over the summer, and we’ll update you further in the Fall. Questions? Contact FHN’s executive sponsor of the initiative, Vice President of Patient Services/Chief Nursing Officer Kathy Martinez, MSN, RN, at 815-599-7529 or kmartinez@fhn.org.
